Istanbul / Tuzla

Military Service: April 2026

Driving License: Class B

Education

Iskenderun Technical University | 10/2019 - 09/2023

- Bachelor in applied computer engineering

OZAN YAZICI

SOFTWARE DEVELOPER

SKILLS

DEVELOPMENT

RESTful API, ASP.NET Core Web API, ASP.NET Core MVC, Clean Architecture, N-Layer Architecture, MVVM, Entity Framework Core, LINQ, Dependency Injection, Design Patterns, SQL Server, SQLite, C#, HTML, CSS, JavaScript, React, Git & GitHub, CI/CD, GitHub Actions

CERTIFICATION

- **Atlassian** | 04/2024 |
  Jira Software certificate
- **Udemy** | 10/2024 |
  Android Mobile Application Course Java & Kotlin
- **BTK Academy** | 21.03.2025|
  SQL Course

EXPERIENCE

- **Anka Proje** | 28.08.2025 – 15.03.2026 |
  Conducted field surveys and land measurements, contributing to maps, plans and cadastral projects. Processed measurement data digitally for zoning, infrastructure and construction projects. Operated GPS and total station equipment, organizing data with CAD and GIS software.
- **Veribis** | 02/2025 – 04/2025 |
  Designed and developed CRM screens using modern UI principles to enhance user experience. Modeled relational databases and collaborated with the development team to align schema with business requirements.

INTERNSHIP

- **Tarsim** | 07/2023 – 08/2023|
  By collaborating with Tarsim's technical team, I contributed to developing solutions for real-world problems. This experience strengthened my technical problem-solving, teamwork, and communication skills within IT projects.

TOP PROJECTS

Software Developer
01/2026,

bsStoreApp Web API

- N-Layer ASP.NET Core Web API with separate Entities, Repositories, Services and Presentation layers
- ASP.NET Core Identity with role-based authorization and seeded roles
- HTTP response caching, rate limiting and dynamic sorting/paging for scalable API responses
- bsStoreApp Link

Technologies: ASP.NET Core Web API, C#, Entity Framework Core, AutoMapper, ASP.NET Core Identity, SQL Server

Software Developer
10/2025,

Dotnet-store

- a full-featured e-commerce web application with customer storefront and admin panel
- role-based access control with separate admin panel for product, category and order management
- clean MVC architecture with repository pattern and Entity Framework Core
- dotnet-store Link
- Live Site

Technologies: ASP.NET Core MVC, C#, Entity Framework Core, SQL Server, ASP.NET Core Identity, CI/CD (GitHub Actions)

Software Developer
09/2025,

React Movie App

- TMDB API integration for movie/TV search, details, and recommendations
- Context API for theme (light/dark) and watchlist state management
- React Router multi-page navigation with a responsive Bootstrap 5 UI
- react-app Link

Technologies: React, Vite, React Router, Bootstrap 5, TMDB API

Software Developer
11/2024,

Runique

- an application to track your runs
- offline first approach allows you to record your runs even without internet
- scalability and reusability thanks to feature-based multi module architecture
- Runique Link

Technologies: Android, Kotlin, Koin, Clean Code, Multi Module Architecture, Jetpack Compose, Coroutines, Offline First

Software Developer
05/2022, 3 months

VetClinic

- a desktop application where patient status can be checked and organised
- VetClinic Link

Technologies: C#, SQL
